

**JAYZEN PRODUCTIONS / JAYZEN SOUND**  
**End User License Agreement**  
**Virtual Instruments, Audio Loops, Soundscapes**

All products purchased on [www.jayzensound.com](http://www.jayzensound.com) are sold under license by Jayzen Productions. Terms and Conditions for using Jayzen Sound products are as follows:

**Terms:**

Jayzen Productions owns and operates the [www.jayzensound.com](http://www.jayzensound.com) website (also referred to as “Jayzen Sound”) – Jayzen Productions’ online database of sound products.

The term “you” when used in this document refers to the original registered owner who has purchased and received (via electronic download, CD, or DVD) a sound product from Jayzen Productions.

The terms “sound product(s),” or “product(s)” when used in this document, refer to any sound, sample, or file, in any format or configuration, which originates from Jayzen Productions’ database of Virtual Instruments, Audio Loops, and Soundscapes. Sound products may be purchased and downloaded directly from our website, or purchased on CD/DVD media from a retail partner.

**Registration:**

This EULA is only valid if we have recorded your product purchase, name, email address (and/or postal address), and order number(s) in our Registration Log.

The Registration Log is kept off-line, in the Jayzen Productions’ Canadian office, in a secured file, and is updated regularly. All downloaded products are automatically registered to the person that purchased them. Products purchased from a retail partner will need to be registered manually using the contact form found on the website.

**Ownership:**

Ownership, copyright, and advertising rights to all sound products sold by Jayzen Productions remain the property of Jayzen Productions and are licensed, not sold, to you. By purchasing these sound products, you automatically become bound to the terms, conditions, and limitations of this License Agreement.

You are granted a lifetime non-transferable single user license to use this sound product for the purposes stated in “usage” below, and according to the stated limitations. Only the original registered purchaser can legally use this product. This license is NOT transferable except under certain strict condition and payment of a transfer fee. Please contact us with details.

Jayzen Productions retains all rights, title and interest in the audio content contained in all Jayzen Sound products, including all copyrights, as well as any modifications or improvements made to the licensed property by any third party.

**Usage:**

This license grants you (the registered user) the non-exclusive right to use this product (and the sounds contained therein) for the purpose of creating new original music only.

To create new original music, the sounds from this product must be recorded along with sounds from other sources (including other Jayzen Sound products). You are free to use, record, sell, distribute, and market this new original music as you wish – there are no additional fees.

You are also permitted to use the sounds from any individual Jayzen Sound product when the sounds are synchronized with visual content – i.e. the sounds play at the same time as visual images (video, photos, etc.) are being displayed – as is typical when composing music for film or video soundtracks. You may also use them as background music or sound design for theatrical works.

**Limitations:**

You may not resell or distribute this Jayzen Sound product in either its existing form, or any modification thereof. You cannot sell, loan, rent, lease, assign, or transfer all or any part of this Jayzen Sound product to a third party, or for use in any competitive product.

You are not authorized to copy, duplicate, provide access to, sell, lease, loan or give away samples or sounds from this Jayzen Sound product by any means including the World Wide Web, streaming audio or any delivery method now known or which shall become known.

You may not transfer, re-record, copy or duplicate any Jayzen Sound product, in whole or in part, for any purpose not authorized under this EULA without express written authorization from Jayzen Productions.

You are not allowed to provide access to any Jayzen Sound product from any location remote from your licensed address.

If you sell or otherwise dispose of computers, hard drives, discs or any other electronic storage media, you must delete all Jayzen Sound products on the storage media. Also, any Jayzen Sound product maintained on any computer, hard drive, disc or any other electronic storage media must be deleted immediately upon return of this product, or upon the transfer or sale of this product to any third party.

**Networked or Multi-User Environments:**

Jayzen Sound products are sold with the understanding that you will use them to create your own original music compositions and sound designs. With this in mind, we allow the copying or re-recording of our sound products to a single computer workstation that will not be networked or accessed by more than one end user at a time. The use of our products in a networked or multi-user environment is not authorized unless you have received permission directly from Jayzen Productions. (File sharing and multi-user licenses can be purchased separately - please contact us with details.)

**Credit:**

For any commercial release that uses Jayzen Sound products as a significant part of its composition, please give us credit, along with a link to our website. (For example: "Bass samples and percussion loops provided by Jayzen Sound - [www.jayzensound.com](http://www.jayzensound.com)").

**Liability**

Jayzen Productions accepts no responsibility for any loss of business or business profits resulting directly or indirectly from the performance or use of any Jayzen Sound product. We are not liable for any damages or injury caused by, including but not limited to, any failure of performance, error, omission, defect, or computer virus. **You assume all risks associated with the use of Jayzen Sound products.**

**Copyright:**

All Jayzen Sound products, including the sounds and audio samples contained therein, are protected by Canadian, U.S., and International copyright law. *Copyright infringement is a serious offence – violations will be prosecuted to the full extent of the law.*

***Every Jayzen Product represents many hours of painstaking work, dedication, and the combined talents of many technicians and musicians. It is only through the honesty and support of our customers that we can continue to offer innovative sound products to the world music community. Please respect our copyright and protect your investment! Do not make unauthorized copies of our products - instead, encourage people to visit our website and show their support for the hard work of other artists. Thank you!***

If you have questions regarding the legal usage of Jayzen Sound products, or wish to report possible copyright violations, please direct your comments to: [license@jayzensound.com](mailto:license@jayzensound.com)
